

The SOMMER logo is displayed in white capital letters inside a red rectangular box with a white border.

One operator, endless possibilities.

SOMMER's modular system with a vast array of accessories allows a fully customizable user experience, either at initial installation or as options for retrofit.

Our evo+ and pro+ models are a prime example of the quality and customization we offer. Similar in many ways, these models are manufactured to the highest quality with Direct Drive technology, offering innovation, security, and versatility.

The pro+ features a separate control unit that can be mounted anywhere in the garage.

pro⁺

RAIL SYSTEM

- The standard rail operates up to 8' tall doors
- Easy shortening or lengthening of the rail possible for up to 24' tall doors
 - Rail extension 21.5"
 - Rail extension 24"
